AN ACCIDENT AT WORK NEED NOT EFFECT YOUR JOB

Being involved in any accident at work can be horrific. You worry that you might not return to work, or that your employer will blame you for your accident. That need not be the case. Get the accident at work experts on your side and ensure your interests are protected.

WHATEVER THE NATURE OF YOUR ACCIDENT AT WORK, WE CAN HELP

- Accidents involving machinery or vehicles
- Faulty office furniture or equipment causing injury
- Injury caused by other employees

PROTECTING YOUR CLAIM AND ENSURING YOUR RECOVERY

Of course as your legal experts we will ensure we focus on protecting your claim. But much more than that we realise that often getting your life back on track is just as important, including getting back to work. That is why in addition to expert legal advice we can provide you with private medical treatment and workplace retraining if required.

We want your accident at work to have as little impact as possible on your life.

CAN I CLAIM?

We offer a free initial consultation, so if in doubt please call us, but in most cases you can claim if:

- The accident was less than 3 years ago (longer in special cases, please ask)
- Someone else was to blame for the accident (possibly even if you contributed to the accident also)

SEEKING EARLY LEGAL ADVICE CAN MAKE A SUBSTANTIAL DIFFERENCE

Accidents at work more than many other injury cases require urgent and early legal advice to ensure all of the evidence is protected for you.

We will protect your interests and in most cases ensure that you receive 100% of your compensation

Remember to mention "Law Kits" when you call Balinda & Co on:
